

# SOUTH GATE RECYCLING

## ACCEPTED MATERIALS

### We are Universal Waste Systems.

Universal Waste Systems (UWS) is one of Southern California's largest family owned & operated companies. With over 3 generations of experience, we pride ourselves on our excellent customer service & hands-on approach to waste disposal. Equipped with the infrastructure & service capabilities to meet any need, while providing the personalized service of a one man operation - that's our mission.

### What is AB 341?

AB 341 is a state law that requires all businesses to separate recyclable materials from their waste for recycling.

### How can I comply with AB 341?

Your business can sign up for recycling service with Universal Waste Systems and begin depositing all of your recyclables (clean paper, plastic, glass, metal) into your blue recycling bin.

### My employees take my recyclable waste to sell to recycling centers, is that enough?

Many people take beverage bottles and cans to recycling centers to redeem the CRV deposit. However, many other recyclables are not eligible for a CRV deposit, such as cardboard, office paper, plastic containers, plastic film, etc.
